

Specializing in control, network and communications technology for all types of rail vehicles, Selectron Systems AG is a world leader in its field. The flexibility of a medium sized company, coupled with the performance of the Knorr-Bremse Group, make the company an excellent technology partner.

Within the Knorr-Bremse Rail Vehicle Systems (RVS) division, Digital Products Cybersecurity is responsible for the overall governance of Cybersecurity. Come and join our team as:

## Cybersecurity Compliance Support Trainee 80 – 100% (f/m/x)

### YOUR TASKS

- Cooperation in reviewing and researching Cybersecurity relevant regulatory frameworks
- Cooperation in overseeing and monitoring the implementation of applicable Cybersecurity legislation, regulation, and standards across RVS
- Assist internal stakeholders to comply with relevant standards and regulations
- Perform research while assisting in the planning and execution of internal Governance, Risk, and Compliance (GRC) assessments
- Assisting for conceptual work on customer presentation and information related to Cybersecurity-relevant legislation and regulation
- Assist to coordinate the work of GRC projects with internal stakeholders

### YOUR PROFIL

- Exposure in the field of Cybersecurity and a legal relevant education
- Effective communications skills and a hands-on mentality
- Effective time-management skills
- Adaptability and flexibility to work in complex changing environments
- Interest in and respect for different cultures
- Business fluent in the English language

### WHAT WE OFFER

Through a blend of engineering excellence, sustainable development and social responsibility, our employees help to drive progress at more than 100 sites in 30 countries. We offer you an exciting role with plenty of variety in an international environment, as part of an attractive package that extends from flexible working hour models, remote work and attractive social security benefits.
